Day 2 : San Cristobal

Today you will go to the famous Kicker Rock, a volcanic formation where you snorkel and can spot fascinating sea life: black tip sharks, sea lions, rays, and along the rock many tropical fishes and corals. The tour also includes a stop at a nice beach. You will be back in the mid afternoon, rest of the afternoon free to stroll around the waterfront or enjoy the beach.

The boat capacity (according to authorization of National Park Galapagos) is max 12 per boat so the group will go in 2 boats. The boats won't necessarily be following each other as the National Park gives each boat hours to be on each specific site. There is an option for a one tank dive instead of snorkeling on this Kicker Rock excursion. There is an add on cost for the dive master and gear. Interested divers please let me know and I will provide you pricing.
